Learning Resource Center (LRC)

- The Learning Resource Center (LRC) is a fee-based program for students with diagnosed learning differences and/or students who are struggling academically. The annual cost for LRC is \$500, \$3,000, or \$4,000, depending on the level of support needed by the student. LRC does not provide subject-area tutoring; if subject-area tutoring is needed, you are encouraged to hire a private, subject-area tutor.
- Students enrolled in the LRC are assigned a “focus teacher” who guides their learning in the program. At times, students have access to the other focus teachers in the LRC to support them with their academics. LRC “focus teachers” work with students in small groups to help them improve academic skills and teach strategies so they can perform better in their classes. LRC teachers help students develop test-taking skills.
- A parent’s main source of information on their child’s academic progress is via the online parent portal (PlusPortals). The LRC “focus teacher” will provide supplemental communication to teachers, parents and other appropriate people regarding the student’s progress.
