### Learning Resource Center (LRC)

The Learning Resource Center (LRC) is a fee based program for both students with diagnosed learning differences and for those who are struggling academically. LRC does not replace private, subject-area tutoring. Focus teachers work with students in small groups to help them gain academic skills and strategies so they can perform better in their classes. Through content area coursework, LRC teachers help students develop further academic and test taking skills. Students enrolled in the LRC are assigned a focus teacher, who guides their learning in the program. They also have access to the other focus teachers in the program to support them with their academics. The focus teacher is responsible for communicating to teachers, parents and other appropriate people regarding the student's progress.
