

# ENGLISH LANGUAGE LEARNERS PROGRAM

## About the English Language Learners Program

International students at IMG Academy, representing more than 70 countries from around the world, come together to study, train, and develop into complete student-athletes.

For those student-athletes who are not yet proficient in English, we provide an English Language Learners (ELL) program so that all students can achieve their academic goals.

## English Language Learners Program Overview

IMG Academy offers multiple levels of classes and academic support for its English learners. During the admissions process, international applicants to IMG Academy must submit evidence of their competency in English. Students with limited English proficiency will take the iTEP SLATE (Secondary Level Assessment Test of English) upon arrival and be placed into the appropriate level of ELL support.

## ELL FACULTY

### Irina Zimmerman

ELL Teacher
