

Dear IMG Academy Parents (Guardians),

This document is to inform you about our new medication management program being implemented to provide enhanced safety and medication delivery for students as they attend IMG Academy. This will be required for all students who take scheduled daily medication.

To begin registration for PersonalRX, visit care.personalrx.com/img. After registering, parents can access account information at any time to review medications, transactions, and insurance information. PersonalRX is determined to provide a superior, customer focused pharmacy experience. For questions, please call 877.230.6030 or email care@personalrx.com.

IMG Academy and PersonalRX encourage all parents to complete the registration process as early as possible to ensure that all needed medications are available at IMG upon student arrival. For participants who will be enrolling in the IMG-provided insurance plan, as well as any participant not fully registered upon arrival at the academy, it is imperative to bring a 2-4 weeks supply of all medications to ensure continuity of medication therapies.

PersonalRX is contracted with most insurance companies. The pharmacy will process your insurance and help with any insurance questions or issues. Co-payments will be billed directly to you, as appropriate, when prescriptions are filled. You will be responsible for the cost of any medication not covered by your insurance as well as other requested over the counter items.

Thank you for understanding the importance of implementing this new program. Please call PersonalRX with any questions at 877.230.6030.

Thank you,

Johns Hopkins All Children's Hospital at IMG Academy
